Gpg Dragon Box Firmware 1.65 Free Download Gpg Dragon Box Firmware 1.65 Upgrade Tool And Download Gpg Dragon Box Firmware 1.65 Download and Upgrade You can Download Gpg Dragon Box Firmware latest from the link given below. Gpg Dragon Box latest version 1.64: Gpg Dragon Box Latest Firmware for Nougat / Oreo / Kitkat / Marshmallow / Lollipop / Pie / Android 9.0 / 8.1: Gpg Dragon Box Firmware 1.65 Free Download | Dragon Box Firmware 1.65 Upgrade Tool And Download | Gpg Dragon Box Firmware 1.65 Download and Upgrade Gpg Dragon Box Firmware for Android 1.65 is ready for downloading. When you open the download link, first thing you have to do is to Extract it. Once extracted, you will get a folder with a file named DragonBox.7z. Open it using the method you are comfortable with and you will be able to find a file named DragonBox.bin. Install this on your mobile by opening the .bin file using a file manager app on your phone. Once installed, this will enable USB debugging on your phone. You can now test connectivity with the hardware. If you get connectivity, then you can now go ahead and install the latest version of the firmware for your setup. If you encounter any problem, feel free to comment below or contact us on our Facebook page. Changelog v1.65 : Firmware V1.65 Added Backup and Restore option to the Homescreen. Fixed the bug SPD working in 1.60 and 1.61 Firmwares. Resolved the issue of issues of SPX6610\_6620 does not work properly with the Android OS 4.4. Updated the GpgDragon Dragon box Firmware 1.64.
