About This Game

Following the record-breaking launch of NBA 2K16, the NBA 2K franchise continues to stake its claim as the most authentic sports video game with NBA 2K17. As the franchise that “all sports video games should aspire to be” (GamesRadar), NBA 2K17 will take the game to new heights and continue to blur the lines between video game and reality.

Severs gone.. DO NOT BUY THIS in it's current state. Online servers are GONE. servers offline, phone is broken and will freeze game in mycareer in offline. used to be the best version of 2k imo, now it is broken.. Terrible game all in all if you are buying the PC version. I must state that I only play the League and GM modes, where I take charge of a team. I don't really play MyPlayer mode.

Gameplay: The controls for PC are terrible, especially in terms of using dribble moves to drive past the PC-controlled defenders. Even at Rookie Mode, Lebron James can't drive past a PC defender that is flat-footed (e.g. Muscala). The player controlled players are also almost 1 second slower when changing directions during dribbling or defence. Atrocious and unrealistic.

Menu controls: There is no way to have pre-set substitution sets like 3-Pointer subs, Free-throw Subs, Starters etc. You have to manually sub out each and every player.

Graphics: Even Steven Adams looks like a mal-nourished Stephen Curry in terms of muscle definition. Enough said.

I actually want a REFUND for this game... and I have 66 steam games and have never ever felt the need to request a REFUND. It is just that bad....
